

EnTri Consulting GmbH
Dr. Klaus Tritscher/Managing Director
Schoenbrunner Str. 297/ 5th Floor
A-1120 Vienna

St. Veit/Glan, 11.9.2012

Re.: Reference Letter Dr. Tritscher

Ladies and Gentlemen!

KPV Solar GmbH is a company active in various countries in the solar industry, which develops, plans, constructs and operates photovoltaic projects.

We herewith gladly confirm that we have mandated Dr. Klaus Tritscher, EnTri Consulting GmbH, with an assignment regarding measurement 1.4.1 of the support initiative "go international" (launched by the Austrian Federal Ministry of Commerce in cooperation with the Chamber of Commerce) in January 2012. Content of this assignment was the "joint detailed evaluation of potentials and obstacles regarding export, as well as the definition and the respective implementation of measures".

The research in regard to the framework for renewable energy projects in Romania has been made quickly and comprehensively by EnTri Consulting GmbH; a description indicating chances and risks has been worked out and supported by extensive underlying documentation.

As early as February 9th, 2012 EnTri Consulting GmbH submitted the final report, which has been submitted together with further documents to the Chamber of Commerce of Carinthia. Administration and handling of payment of the subsidy were also executed quickly.

In view of this positive experience we can highly recommend the cooperation with Dr. Tritscher, respectively EnTri Consulting GmbH.

Yours sincerely,

Photovoltaic Power.
