Würth Solar GmbH & Co. KG · Alfred-Leikam-Straße 25 · 74523 Schwäbisch Hall · Germany

Schwäbisch Hall, 12.09.2012

To whom it may concern!

Dear Sirs,

The Würth Solar group with subsidiaries in Germany, Spain, Italy, France, Greece and the Czech Republic is a member of the German based multinational Würth group and develops, installs and operates solar power projects on a global basis.

We herewith confirm that we cooperate with EnTri Consulting GmbH, based on an agreement that came into force on March 2012 and is still ongoing.

In line with this agreement EnTri Consulting GmbH provides services for solar projects, in which the Würth Solar group is involved (for ex. as developer, EPC-contractor, provider of operation & maintenance, etc).

The main activity of EnTri Consulting GmbH under this scheme is to organize potential financing partners and (co-)investors for our solar projects.

Primarily EnTri Consulting GmbH is involved for the procurement of equity partners, without limitation in regard to the project-countries, but especially for south-eastern and eastern Europe. Depending on the specific needs of a project, at times also the organization of debt financing is mandated to EnTri Consulting GmbH under the a.m. agreement.

Best regards,

Würth Solar GmbH & Co. KG
